CANE

FNa2 - Design document :3

Cuz im bored ig ;3c

Author: catnip :3
Project Authors: catnip :3 & orlOpl

MECHANICS:

☾ the gameplay is seperated into a few segments called "nights"

? 📦 Between each night there is a "minigame" sequence which can grant some rewards during the night

! 🐱 The player has a couple of things to worry about during gameplay:

👁️ One Door (normal FNaF4 like)
One Window (similar to FNaC or vents)
Enemies (Animatronics)

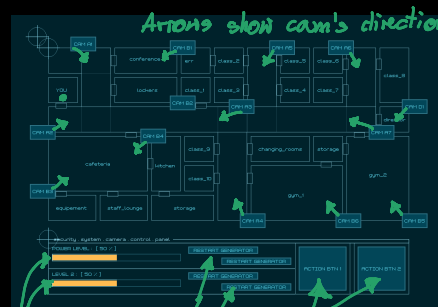

! Different chores (mechanics that make gp more interesting)

+ 📷 Camera System
Mask? - similar to FNaF2 gp wise
Flashlight

Enemies:

	DIFFICULTY
Mrs. CYFRA ➡	●●●●●
Gouda ➡	●●●●●
~THE DIRECTOR~ ➡	●●●●●
MS & SS ➡	●●●●●
Mr. Lonkey ➡	●●●●●

Cameras/Layout:

Important info about e.g. power

Action buttons used e.g. like puppet's musicbox

UCN style actions e.g. power gen

IN-DEPTH CHARACTER DESIGN:

📦 Gouda - Annoying distraction, (similar purpose to BP)

Impersonates other entities with bad accuracy

Lure him away from hiding a real threat

easy

🌱 Mrs. CYFRA - Minigame punishing entity (cause for love only)

mostly in the closet - slowly approaches

water plants and collect money to stop her (UCN FreeCoins style)

Normal

🍎 Young Sul. - Chore entity, (do something to keep away) (SS)

In one of the classes n/ laptop

He's playing a game - help him win or else... (toy fiedly UCN)

MEDIUM

👁️ Old Sul. - Pay attention, (notice small changes) (MS)

In his lair connected to a chair with wires (cyborg)

Pay attention to his movements - any twitching means ele. shock

HARD

👑 THE DIRECTOR - Boss, (very aggressive with minigame prop.)

In director's office, waiting...

Doesn't activate until the final night - manipulates the whole building

INSANE

LOOOOOOORR:

You ♡ are a student which tries to steal test answers for a grand Exam ?

CHOICES MECHANICS:

VAPE - You have to use your vape frequently otherwise you die because of your addiction

VAPE ADDICTION METER: 73%

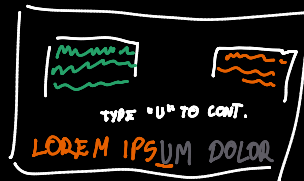

Smoke

Example use green

ANSWERS TRANSCRIPTION

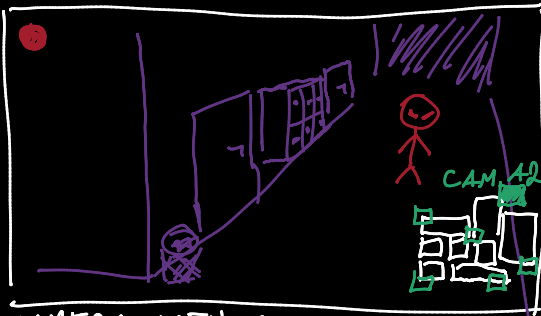

- You need to physically copy it by typing word by word - important: no completing the night without it

Example of in-game UI

ART STYLE:

Similar to TMN (Too Many Nights) - small amount of colors with simple doodly line art

CAMERA VIEW CONCEPT ART

Simple, non-intrusive background

Highlighted enemies

Visible contrastive UI

Decoration/Env. non-intrusive

More visible hour

Highlighted danger

Neutral color UI

Indicators, and interactables are highlighted

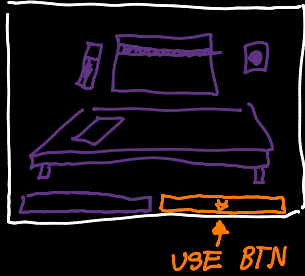

CHORES MECHANICS: _____

VAPING ADDICTION:

The player has to use the "mask" btn repeatedly otherwise, because of the crippling addiction they have they'll experience hallucinations making it much more difficult to beat the night.

Indicator: the main indication that reminds the player is camera shake, strong vignette, hallucinations (phantom enemies fnaf 1's "its me" kind of thing").

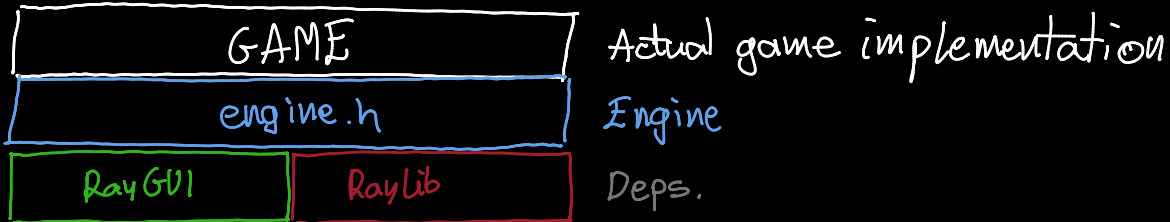

— Lowers visibility

— hides other ui
(unable to use anything)

CLASSES CHART:

Structure:

Engine class:

- ↳ Creates a window
- ↳ Handles outside functions (uses function pointers)

GAME:

- ↳ All game mechanics and implementation (mechanics already explained)

+ States:

GAME STATES

- main menu
- game
- loose
- win

UI STATES

(used when game state is active)

- Office
- Mast / Vape
- Cameras

CAMERAS STATES

(index of the active camera)

+ Enemies:

int • Aggression lvl

double • Movement speed

double • Cooldown

binary • Movement map

tree

Room* • Current room

(used for calculating other values)

(the time in sec. it takes to move)

(timer counting down from Movement speed to 0)

(A binary tree containing info on possible moves)

ALL CAN CHANGE !!
