

Bombel

CAME

FNa2 - Design document :3

Cuz im bored ig :3c

Author: catnip :3
 Project Authors: catnip :3 & or10pl

MECHANICS:

- the gameplay is seperated into a few segments called "nights"
- Between each night there is a "minigame" sequence which can grant some rewards during the night
- The player has a couple of things to worry about during gameplay:
 - One Door (normal FNaF4 like)
 - One Window (similar to FNaC or vents)
 - Enemies (Animatronics)
- Diffrent chores (mechanics that make gp more interesting)
- Camera System
 - Mash? - similar to FNaF2 gp wise
 - Flashlight

Enemies:

	DIFFICULTY
Mrs. CYRA	➡ ●●●●●
Gouda	➡ ●●●●●
~THE DIRECTOR~	➡ ●●●●●
MS & SS	➡ ●●●●●
Mr. Lowkey	

Cameras/Layout:

Arrows show cam's direction

Important info about e.g. power

Action buttons used e.g. like puppet's musicbox

UCN style actions e.g. power gen

IN-DEPTH CHARACTER DESIGN:

- Gouda** - Annoying distraction, (similar purpose to BB)
 - Impersonates other entities with bad accuracy
 - Lure him away from hiding a real threat
 - easy
- Mrs. CYRA** - Minigame punishing entity (cause for love only)
 - mostly in the closet - slowly approaches
 - water plants and collect money to stop her (UCN FreeCoins style)
 - Normal
- Young Sul.** - Chore entity, (do something to keep away) (SS)
 - In one of the classes n/ laptop
 - He's playing a game - help him win or else... (toy freddy UCN)
 - MEDIUM
- Old Sul.** - Pay attention, (notice small changes) (MS)
 - In his lair connected to a chair with wires (cyborg)
 - Pay attention to his movements - only twitching means ele. shock
 - HARD
- THE DIRECTOR** - Boss, (very aggressive with mimicing prop.)
 - In director's office, waiting...
 - Doesn't activate until the final night - manipulates the whole building
 - INSANE

LOOOOOOORR:

You ♡ are a student which tries to steal test answers for a grand Exam ?

CHOICES MECHANICS:

VAPE - You have to use your vape frequently otherwise you die because of your addiction

VAPE ADDICTION METER: 73%

Smoke
Example use green

ANSWERS TRANSCRIPTION

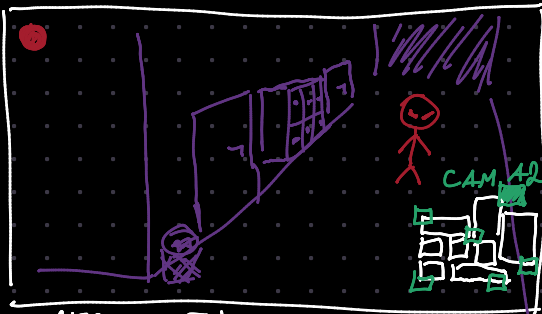

- You need to physically copy it by typing word by word - important: no completing the night without it

Example of in-game UI

ART STYLE:

Similar to TMN (Too Many Nights) - small amount of colors with simple doodly line art

CAMERA VIEW CONCEPT ART

Simple, non-intrusive background

Highlighted enemies

Visible contrastive UI

Decoration/Env. non-intrusive

More visible hour

Highlighted danger

Neutral color UI

Indicators and interactables are highlighted

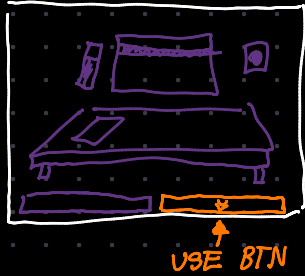

CHORES MECHANICS:

VAPING ADDICTION:

The player has to use the "mask" btn repeatedly otherwise, because of the crippling addiction they have they'll experience hallucinations making it much more difficult to beat the night.

Indicator: the main indication that reminds the player is camera shake, strong vignette, hallucinations (phantom enemies fnaf 1's "its me" kind of thing").

Lowers visibility

hides other ui
(unable to use anything)
